

Product data sheet

RSG Yellow[®] BS Batten

Fully graded roofing batten to BS5534:2014 + A2:2018

Quality, Compliance & Sustainability

RSG Yellow[®] BS batten is a high grade quality BS batten manufactured at our partner saw mill in The Baltics from selected slow grown quality Spruce (Picea abies) or Pine (Pinus sylvestris) side boards.

RSG Yellow[®] BS batten is fully graded to all aspects of BS 5534:2014 + A2:2018 and treated to BS 8417:2011 WPA Benchmark Quality Approved Treatment.

They are machined to the correct thickness and width with laser accuracy to comply to British Standards tolerances.

They are kiln dried to the correct moisture content of no more than 22% as recommended by British Standards.

Full Chain of Custody, responsibly sourced, sustainable, non conflict timber which is either FSC or PEFC certified by CATG FSC Number FSC[®] - C134890 PEFC Number CATG-PEFC-COC-650.

Third party assessed for full quality compliance to BS 5534:2014 + A2:2018 and audited by CATG/BMC to ensure complete piece of mind. Certificate Number A503.

Sizes available 25mm x 38mm and 25mm x 50mm and lengths 3.6m to 5.4m.

The grading process controls the following potential defects:

- | | |
|--------------------------|-------------------------|
| Battens are full to size | Slope of grain |
| Wane | Rate of growth |
| Knots comply | Decay and insect attack |
| Splits and fissures | Resin pocket size |

Individually piece marked to show manufacturer, size, species, grading and 3rd party compliance.

Pressure treated correctly to BS 8417:2011 + A1:2014 to use class 2 by an audited treatment provider from the Wood Protection Association to give a 60 year desired service life. WPA Benchmark Approved.

It is recommended that PPE gloves are worn when handling treated timber. Nail Gun fixings are acceptable if the nail manufacturer can provide test evidence to show that performance of the nail complies with the requirements within Annex H of BS 5534.
